Mrs. B. A. McBride	Asst. Manager, Bookstore
Mrs. L. W. Owens	Study Hall
V. D. Spell	Maintenance
Kenneth Van Keuren	Maintenance
Mrs. J. J. Beaird	Manager, Dry Cleaning Plant
Mrs. Mildred Browning	Manager, Laundry
Dr. Hal M. Terry	College Physician
H. L. McCrory	Night Watchman

## GENERAL INFORMATION

---

### Location

Holmes Junior College is located at Goodman, Mississippi, in the eastern part of Holmes County. The town and college, located on Highway 51 eight miles south of Durant, can be reached by means of Southern Trailway Bus Lines and the Illinois Central Railway. This location is especially convenient to students from Attala, Carroll, Choctaw, Grenada, Madison, Montgomery, and Yazoo Counties.

Goodman, though a small town, is well suited as the location for a junior college. Its people are proud of the school and accord its students a most cordial welcome. Through the churches—Baptist, Methodist, Presbyterian—a special effort is made to serve the students of the college and make them feel at home.

---

### HISTORY

Holmes Junior College had its beginning in 1911 when Holmes County set aside 450 acres of land near Goodman, Mississippi, and established Holmes County Agricultural High School. It remained a high school until 1925 when one year of college work was added. After three years of experiment, the Superintendent and the Board of Trustees added a second year of college work, making the school a full-fledged junior college in 1928.

Holmes County has been entirely responsible for the development of the plant which is now valued at more than \$2,000,000.00. Holmes, Carroll, Attala, Montgomery, Choctaw, and Grenada counties now jointly support Holmes Junior College and through the board of trustees, composed of members from each of the above counties, jointly control the institution. The state, through legislative appropriations, has assumed an increasing responsibility for the support of junior colleges in Mississippi. Thus, through district and state cooperation, Holmes Junior College has come to take its place among the best junior colleges in the state system.

## PURPOSE

---

The purpose of Holmes Junior College is to serve the young people of its area by providing a well-balanced school program. It offers a broad curriculum which provides two full years of academic work leading to various degrees when transferred to the senior college. For those who do not plan to continue beyond the junior college level, it seeks to provide vocational courses of a terminal nature. In addition to these, it provides a varied extra-curricular program which, integrated with its academic and vocational programs, will tend to produce well-rounded personalities fitted to fill their respective places in a democratic society.

## SCHOOL PLANT

---

The Campus of Holmes Junior College, beautifully landscapped with shrubs and trees, is located on the highest peak in the area of about twenty-five square miles. In this setting are to be found fifteen main brick buildings. Included in the above are two dormitories for men, two dormitories for women, the Administration Building, a classroom building, the Home Economics Building, the Science and Music Building, the Student Center, the Gymnasium, the Agriculture Building, the Band Hall, the new air-conditioned Library and a new dormitory for men, and the Faculty houses.

The Administration Building contains the offices of the President, Dean, Registrar, High School Principal, and Business Manager. It also includes several classrooms and the auditorium.

Adjacent to the campus will be found the athletic field and stadium. Also adjacent to the campus is the school farm which in addition to providing the dairy herd, hogs, vegetables, and feed crops, serves as a laboratory for the Agriculture Department.

SCENE IN GIRLS' DORMITORY

### LIBRARY

The new Library Building, which was ready for occupancy the first of September, 1961, is centrally located on the campus. It provides ample space for reading, research, and storage of the ever increasing collection of books, periodicals, and magazines.

There are now approximately ten thousand volumes, exclusive of government publications and bound periodicals on the shelves. In addition, many federal and state bulletins, unabridged dictionaries, encyclopedias, and general works of various sorts are provided for the use of all students. The library subscribes to between seventy and eighty magazines and daily and weekly newspapers, which provide current information on the affairs of the world and recreational reading material.

An annual budget, based on the enrollment, is adequate to keep up replacements and provide for the addition of new materials and books year by year.

Students are urged to use these facilities as extensively as schedules will permit for both recreational and informational reading.

## ACCREDITATION

The High School Department of Holmes Junior College is fully accredited by the High School Accrediting Commission of the State of Mississippi and by the Southern Association of Colleges and Secondary Schools.

The College Department is accredited by the Junior College Commission of the State of Mississippi and by the Southern Association of Colleges and Secondary Schools. It is also a member of the American Association of Junior Colleges.

## EXPENSES

Expenses for non-Boarding Students from Attala, Carroll, Choctaw, Grenada, Holmes, Madison, and Montgomery Counties:  
Due upon Entrance:

Matriculation fee (non-refundable) .....	\$ 5.00

January 7 (Includes second semester fees)	63.00	68.00	163.00
February 4 .....	37.00	42.00	37.00
March 4 .....	37.00	42.00	37.00
April 1 .....	37.00	42.00	37.00
April 29 .....	37.00	42.00	37.00
Total (For 9 Months) .....	\$390.00	\$435.00	\$590.00

NOTE: The amounts given include room, board, laundry, medical fee, tuition, fees, school paper, school annual, and athletic ticket. They do not include books and items of personal expense. They do not include charges listed under "other fees". There are no additional fees for laboratories, music, etc. All students must provide a picture to the school authorities for record purposes. The charges listed above include this school picture.

★

**REFUND POLICY**

The following refund policy regarding fees has been adopted for all students. The matriculation fee of \$5.00 is non-refundable. (This fee is a part of the \$25.00 entrance fee, paid once per semester.) The balance (\$20.00) is refundable as follows: students attending for one week or less will be refunded 75% of listed rate; students attending longer than one week will receive no refund. Out-of-county tuition payable monthly and in advance, is not refundable. The school annual and school paper fees are refundable for the first week of school, after one week there will be no refund.

## MEAL TICKETS AND BOARD REFUND

Each student upon payment of his board will be issued a meal ticket good for the current board period. Students will need to present this at each meal or pay for the meal. Meal tickets are not transferable.

No deduction can be made for board for an absence of less than two weeks in succession; then only when the student presents to the office after his return a statement approved by the manager of the student's dormitory specifying the period of his absence.

## NON-RESIDENT TUITION

There will be a non-resident tuition charge of \$100.00 per semester for all students whose parents are not legal residents of the state of Mississippi. Non-resident tuition is due and payable at the beginning of each semester.

The following refund policy regarding non-resident tuition has been adopted for all students. Students attending one week or less will be refunded 75% of listed rate; students attending longer than one week will receive no refund.

## SUMMER SCHOOL EXPENSES

### High School (For six weeks' term)

Fees .....	\$25.00
Board .....	60.00
Laundry .....	6.00

Total for six weeks	\$91.00
---------------------	---------

Total for three weeks	45.50
-----------------------	-------

### College (For a three week term)

Board .....	\$30.00
Laundry .....	3.00
Matriculation .....	5.00
Fees (\$6.00 per semester hour) .....	18.00
Total for three weeks .....	\$56.00

## SUMMER SCHOOL

---

The 1962 Summer School begins June 4, 1962. High School Summer School consists of one six-week term and one three-week term. Not more than one and one-half units of new work may be taken during the nine weeks of summer school nor more than two units of repeat work.

College Summer School consists of three three-week terms. No student may take more than one hour per week or three hours for three weeks. For additional information write to the Dean or High School Principal, Holmes Junior College, Goodman, Mississippi.

## SELF-HELP OPPORTUNITIES

---

Based on financial need, opportunities are offered deserving young ladies and young men to help defray school expenses. Jobs are available in the cafeteria, the dormitories, and other buildings on the campus. In addition to these, office work is available to those who have had some previous training in this type of work.

Those students who are interested in any of these jobs should make application directly to the President.

## STUDENT LOANS

---

Holmes Junior College is participating in the Federal Student Loan Program. High School seniors may make application for loans to pursue college work, if there is a need for financial assistance. To receive the loan, the students must be enrolled in regular college work.

Those desiring information concerning a loan should write the President.

---

## GENERAL REGULATIONS

1. Gambling, drinking, possession of intoxicants, and firearms are prohibited.
2. Cooking in rooms is not allowed.
3. All boarding students are required to send their laundry to the college laundry. All articles to be laundered should be marked with the full name of the owner.
4. All students who drive automobiles on the campus must register their automobile with the business manager and receive a permit to operate the vehicle.

## ROOM RESERVATIONS

Rooms may be reserved by filling out the application for admission found in the front of this catalogue and enclosing \$5.00. If you wish to be sure of a billet at Holmes, you should reserve a room.

Address your application to: The President, Holmes Junior College, Goodman, Mississippi.

## ROOMS AND ROOMMATES

Rooms in the dormitories are furnished with single beds, dressers, chairs, and tables. Students are accountable for the care of the room and the furnishings in them. Each student is expected to supply his own linens.

One's roommate is much more to be considered than room. The authorities are willing for one to select his own roommate. Should that preference prove unwise, a change can be arranged.

## MEDICAL ATTENTION

A nominal medical fee is charged, for which we are able to provide the services of a competent physician. This fee, however, does not provide for medicines prescribed by the physician. In case of serious illness, the parents are notified. In emergencies the school will assume the responsibility of getting students to the nearest hospital, but will not assume the hospital expense.

Each student is required to have a medical examination by his family physician prior to entering Holmes Junior College. A statement of good health or a statement listing major defects must be filed with the college authorities before acceptance can be completed.

## LAUNDRY AND DRY CLEANING

The college owns and operates its own laundry and dry cleaning on a non-profit basis. Thus, we are able to give our students excellent laundry service at a minimum cost of \$4.00 per month of four weeks. Dry cleaning charges are minimum.

## BOOKS

Books and supplies may be purchased from the book store located in the Student Recreation Building. Both new and used books are available. The book store will buy books from students at a reasonable discount, depending upon the care that has been taken in the use of the books.

By careful buying and use of books, the cost may be kept to a minimum.

## STUDENT PUBLICATION

### The Paper — "The Growl"

The College Paper—"The Growl"—Suggested by our teams known as "Bulldogs" has won its way into the lives of our students and friends and each one eagerly awaits the following issue. Through the columns of the school paper, the students find a chance to learn the art of news writing at close range. In accordance with an amendment to the constitution of the Student Body Organization, a subscription price of \$1.00 per semester will be collected through the business office.

---

## COLLEGE ANNUAL

---

"The Horizons," published for the first time during the session of 1928-29, is a credit to the institution and to those who make it a success. It's a beautiful book and in years to come will remind everyone of those good friends and pleasant experiences of college days.

## ATHLETICS

---

Our athletic program includes football, basketball, baseball, tennis, and track.

Students representing the school in athletic contests are expected to do satisfactory class work and to conform to all regulations of the Junior College Association of which this school is a member.

The school also provides a well-organized physical education program for girls and boys.

## BAND

---

One of the most enjoyable and profitable activities for our students is work with the band. Every effort is being made to make our band one of the best in the state. To this end, we are offering a limited number of scholarships for key personnel. Every student who has had any previous training, or who is definitely interested, should become a part of this organization.

## CHOIR AND GLEE CLUB

---

The Holmes Junior College Choir (mixed group) and the Girls' Glee Club are two of the most active organizations on the campus. These clubs, under the direction of Mrs. Martha McKie, present annual cantatas and concerts and participate in the annual choir festivals. Every spring the groups present programs of sacred music at churches of neighboring towns.

Smaller groups — trios, quartets, sextets, and octettes — are chosen from the Choir and Glee Club and give programs to the various groups of high school assemblies throughout our area. In addition to providing entertainment for these various organizations, it provides excellent training for our young people.

Regular meetings are held every week, and one hour credit is given each semester.

## RELIGIOUS ACTIVITIES

Holmes Junior College is a state supported institution, and is therefore non-sectarian. It, however, believes in the full development of the spiritual nature of its students. They are encouraged and urged to take part in the Christian organizations on the campus, as well as to participate in the services of the local churches.

Religious training is obtained through participation in the Student Christian Association, a non-denominational organization of students under the leadership of faculty sponsors. Through the twilight prayer groups, bi-weekly Morning Watch services, Sunday Vespers, denominational group meetings, the bulletin board "Daily Thoughts," and the personal service rendered by the prayerfully chosen Student Christian Association Cabinet Members, the organization touches the lives of all of the students of the campus. An effort is made to include every student capable of leadership or interested in any phase of religious development in the varied programs presented during the year. Upon registration, the student is given an opportunity to become a member of the student Christian Association; or if the student becomes a member of any denominational group, he is automatically a member of the Student Christian Association. The denominational groups on the campus work in co-operation with the local churches and under their supervision.

## SOCIAL LIFE

---

Adequate provision is made for the social development of our students through both formal and informal occasions planned by a joint committee of the students and faculty. All parties, dances, and other entertainment are so planned that they do not interfere with the school work; yet they provide for the social development of the students.

## SCHOLASTIC REGULATIONS

### EXAMINATION AND CLASSIFICATION

---

Two regular examinations will be held during the session—one at the close of each semester. Tests will be given and grade sheets turned in to office at the close of each six weeks. The basis of classification with minimum units needed is as follows: Tenth grade, three units; eleventh grade, seven units; twelfth grade, eleven units; college freshman, 15 units; college sophomore, 26 semester hours. The classification applies to the record of the student at the beginning of the session. Exceptions may be made at midterm in case of students who have a chance and expect to graduate at the following commencement.

### GRADING

---

Grading will be made in letters A. B. C. and D as passing grades, F as failing, and I as incomplete. On a percentage basis, grades may be interpreted as follows: A—93 and above; B—85 through 92; C—75 through 84; D—68 through 74; and F—below 68. Incomplete indicates that some necessary work for the course has not been satisfactorily completed. I's must be removed within two weeks following regular school term, or the grade will automatically be recorded as an F.

---

## SEMESTER HOURS

---

A semester hour of college credit is defined as the credit earned when a course meets one hour per week for eighteen weeks on a lecture basis. Normally 128 to 144 such hours are required for a degree from a senior college. Sixty-four semester hours are required for graduation from most Junior Colleges.

---

★

---

## QUALITY POINTS

---

Quality points are assigned as follows: Three quality points for each semester hour with a grade of A, two quality points for each semester hour with a grade of B, and one quality point for each semester hour with a grade of C.

An average of at least one quality point per semester hour earned is required for graduation at all senior colleges.

---

★

---

## HONORS

---

Students who take a minimum of fifteen semester hours and who make a better than average scholastic record are recognized each six weeks by making the "Dean's List." The "Dean's List" consists of three parts, namely: (1) those with a quality point average of 2.7 and above, (2) those with a quality point average of 2.4 to 2.7, and (3) those with a quality point average of 2.0 to 2.4.

Honors at graduation for college students are as follows: those who have earned 2.7 quality points and above for all four semesters will be graduated with "Special Honors." Those who have earned 2.4 quality points to 2.7 quality points per semester will be graduated with "Honors."

---

★

---

## REPORTS

---

A report of the student's work is made to the student and parents at intervals of six weeks. Students who desire a copy of these grades should make a request of the registrar. After one copy has been sent, a charge of fifty cents will be made for additional copies.

---

## ABSENCE FROM CLASSES

---

A student should realize from the beginning that he suffers a great loss each time he is absent from class and also causes his classmates to lose time.

Students are allowed one absence from each class each semester without question. Once a student has absented himself from class, he must at all future times of absence justify the absence as being necessary. Absences due to personal business should be kept to an absolute minimum and must be cleared in advance unless the student can show an emergency involved.

Parents should realize that their children cannot do their best work when they miss classes and that the school cannot honor excuses except for emergencies.

Absences due to school activities are excused, but in all cases the student is responsible to make up work that was missed.

Students missing a scheduled hour test without sufficient reason will not be allowed to make up the test and will receive an F for the test grade.

Grades are lowered when a student cannot justify his absence.

Absences before and after stated holidays will count as double absences.

## ACADEMIC FAILURE

---

A student who fails to pass nine semester hours in a regular semester automatically becomes an academic failure.

An academic failure for one semester is placed on probation and will be subject to strict regulations. An academic failure for two semesters is ineligible to re-enter Holmes Junior College for the next semester.

## ADMISSION (HIGH SCHOOL)

### Admission

Students are admitted to the High School Department on the completion of the eighth grade in an accredited school. A transcript of the credits indicating an honorable withdrawal from the high school from which the transfer is made must be presented to the High School Principal at the time of enrollment.

## REQUIREMENTS FOR GRADUATION

The curriculum for the High School follows that suggested by the State Department of Education. Sixteen units are required for graduation. Of this sixteen, the following are specifically required:

English .....	4
Mathematics (Alg. I and Alg. II or Plane Geometry .....	2
Home Economics for Girls .....	1
Social Science (one of which must be American History) .....	2
Electives .....	5

Under special conditions, one unit in science may be substituted for home economics. Special attention should be given college entrance requirements when selecting the electives.

### High School Curricula

As a guide for students in classifying, we group the courses as follows:

#### First Year

English .....	1
Algebra I .....	1
Social Science .....	1
Agriculture .....	1
Home Economics .....	1

### Second Year

Plane Geometry .....	1
English .....	1
World History .....	1
Biology .....	1
Agriculture .....	1
Home Economics .....	1

### Third Year

English .....	1
American History .....	1
Agriculture .....	1
Home Economics .....	1
Algebra II .....	1
Shorthand and Typing .....	1
Hygiene and Geography .....	1
Music .....	$\frac{1}{2}$
Physical Education .....	$\frac{1}{2}$
Chemistry .....	1
Physics .....	1

### Fourth Year

English .....	1
American Government and Economics .....	1
Shorthand and Typing .....	1
Agriculture .....	1
Home Economics .....	1
Music .....	$\frac{1}{2}$
Physical Education .....	$\frac{1}{2}$
Chemistry .....	1
Physics .....	1
Physics .....	1
Trigonometry .....	1
French .....	1

---

## THE JUNIOR COLLEGE

---

### ADMISSION (JUNIOR COLLEGE)

---

Students are admitted to Holmes Junior College by certificate, by examination, or as special students.

Graduates of an accredited high school may be admitted on presentation of a transcript showing not less than fifteen acceptable units.

All students must have earned at least four units in English, two units in mathematics, two units in history or other social science, and seven additional units meeting the requirements as set up by the High School Accrediting Commission.

Students majoring in Engineering, Mathematics, or Science must have earned one unit in science, two in algebra, and one unit in plane geometry. Students lacking any of these required subjects will be admitted to Holmes Junior College provided they schedule the deficient high school subjects the first semester enrolled here.

Students who are not graduates of an accredited high school may apply for admission by special examination. The student must show through examination that he has the ability to do satisfactory college work.

A student's credits must be received and accepted before a permanent classification can be given. Transcripts of credits should be mailed by the high school official directly to the Registrar at least two weeks before the opening of school.

### WITHDRAWAL

---

When a student withdraws from Holmes Junior College, he is expected to fill out a withdrawal form and have it signed by the proper authorities. Any student leaving school without his debts to the school being cleared will have his records frozen. These records will remain frozen until the student clears up his financial indebtedness to the school.

A grade of **W.P.** will be assigned to a course when a student withdraws after the first six weeks of school and was passing the course at the time of withdrawal. A grade of **W.F.** will be assigned if he was not passing at the time of withdrawal. A student failing to withdraw will receive an **F.** in all subjects.

## REQUIREMENTS FOR GRADUATION

---

Candidates for graduation may pursue either of two courses; first, toward the "Associate in Arts Degree," and second, toward a "Certificate of Graduation."

A candidate for the "Associate in Arts Degree" must complete a minimum of 64 semester hours including not more than four non-academic hours. The hours earned must be applicable to a course outlined in our catalogue. The candidate must earn at least 64 quality points on subjects applicable to his chosen course of study. Six hours of English composition is required of all candidates.

Candidates for the "Certificate of Graduation" must complete 64 semester hours. Six semester hours of English composition are required of all candidates. Students who expect to work toward a degree would not pursue this course of study.

Nine months of residence work is required for graduation.

Candidates for graduation should file their applications with the Registrar for Associate of Arts, Certificate of Graduation, or Special Department Certificate not later than March tenth for graduation in May.

## TRANSCRIPTS

---

One transcript will be furnished each student free of charge. For each additional transcript, there will be a charge of one dollar.

**COURSE XXVI**  
**\* PRE-ENGINEERING**  
**All Engineering**

Requirements for admission to Engineering are 4 units of English, 2 units of social studies, 2 units of science (biology, chemistry, or physics), 4 units of mathematics (algebra, geometry, and trigonometry), and 4 units of elective subjects.

Students meeting the above requirements will take the following:

**First Year**

<b>First Semester</b>		<b>Second Semester</b>	
Composition	EN 113	Composition	EN 213
Mech. Drawing	DR 102	Mech. Draw.	DR 202
General Inorg.	CH 114	General Inorg.	CH 214

★

**COURSE XXIX**

**COSMETOLOGY**

This course is designed for beauticians and hair dressers and is approved by the State Board of Education and the Mississippi Board of Cosmetology. A student who completes this course will be issued a certificate which entitles her to take the State Cosmetology Board examination for a license to become a beauty operator in the State of Mississippi.

The class is limited to twenty students. The fees for the course are \$100, plus cost of books and graduation fee. A \$25.00 deposit, which is non-refundable, is required to assure a student a place in the class. This deposit covers the room reservation deposit of \$5.00. The student must request a room when making the deposit if she intends to stay in the dormitory. Room, board, and laundry are available on the campus at the regular student rate of \$37.00 per four weeks of school.

**COURSE TE 320**

**RADIO**

The duration of this course is 18 months.

Radio maintenance and construction, electricity or radio and design and operation of equipment must be mastered by the student.

The student must learn the use of all tools and necessary equipment for construction work in good shop practice, receiver and transmitter operation. Circuit design and operation of equipment is required of each student.

A fee of \$15.00 per month is charged for this course.

**COURSE TE 430**  
**TELEVISION AND F. M.**

---

The duration of this course is eight and one-third months.

The course is designed to give the student actual experience in the construction and operation of television and F. M. receivers by building and operating this equipment. Television and F. M. antennae will be constructed. Maintenance and repair of television and F. M. receivers; the proper use of tools and necessary equipment; and television theory are required for this course.

A fee of \$15.00 per month is charged for this course.

Cosmetology

---

Scene In Student Center

## DESCRIPTION OF COURSES

### ACCOUNTING

Mr. Fletcher

---

#### AC 104-204—Accounting Principles.

Three lectures. Two hours laboratory. Four credits each semester.

Theory of debit and credit; business papers; books of original entry; ledgers; working papers; financial statements; sole proprietorship; partnerships and simple corporation transactions.

#### AC 413—Cost Accounting.

Three lectures. Three credits.

Cost accounting principles and techniques as applied to both job order and continuous process types of industry. The determination of unit costs and the preparation of cost reports are emphasized throughout the course.

---

### DEPARTMENT OF AGRICULTURE

Mr. Thomas

Mr. Almond

---

#### AG 103—Farm Crops.

Two lectures. Two hours laboratory. Three credits.

This course includes class work, field trips, seed classing, and other related study concerning production and utilization of all maintenance crops of the farm. This course will have special emphasis placed on southern field crops.

#### AG 213—Principles of Dairying

Two Lectures. Two hours laboratory. Three credits.

This course will include selection, breeding, feeding, care and management for dairy cattle. Special emphasis will be placed on feeding as a means of economic production. Laboratory work will include testing whole milk and cream for butter fat. Home mixing of feeds, installation of sanitary equipment, judging and other related work.

**AG 223—Farm Forestry.**

Two lectures. Two hours laboratory. Three credits.

A general course in forestry, special emphasis being placed upon objectives and needs for forestry, conservation of forests, methods of establishing forests, management of forests, and soil erosion by reforestation.

**AG 333—Elements of Animal Husbandry.**

Two lectures. Two hours laboratory. Three credits

A general survey in the field of Animal Husbandry, including the relation of livestock to general farming, and a study of breeds and market classes of farm animals.

**AG 344—Soils.**

Three lectures. Two hours laboratory. Four credits.

A course designed to give a student a basic concept of general soils, including soil genesis, classification, and the physical, chemical, and biological aspects of soils. Soil Management, including fertilization, liming, and terracing will also be stressed.

**AG 353—Principles of Agricultural Economics.**

Three lectures. Three credits.

A general course on the basic principles of economics and their application to agriculture. Special emphasis will be placed on economic problems of agriculture; American economic development, production, and business organizations; the law of diminishing returns, some principles of trade and production, farm organization, exchange value and the market price, cost of production, price level movement, and the farm problem and the government.

**AG 463—Farm Machinery.**

Two lectures. Two hours laboratory. Three credits.

A general course in farm machinery, including horse-drawn and power-drawn equipment, with special emphasis on trends toward farm mechanization, its possibilities and limitations as related to agriculture in Mississippi.

**AG 473—Poultry Production.**

Two lectures. Two hours laboratry. Three credits.

A general course in poultry production with special emphasis being placed upon selection of breeds, incubation and brooding of chicks; feeding, breeding, disease control, housing and marketing of poultry.

**AG 483—General Horticulture.**

Two lectures. Two hours laboratory. Three credits.

A general course in horticulture with special emphasis being placed on selection of site, systems of laying out orchards, selection of horticultural crops and varieties best suited to Southern conditions, management, and insect control.

**BIBLE**

---

**BB 302—Old Testament**

Two lectures. Two credits.

A study is made of the Old Testament record of Hebrew history, prophecy, worship, and wisdom and the relation these bear to Christianity.

**BB 402—New Testament**

Two lectures. Two credits.

A study of the work of Christ as recorded in the four gospels and the writings of Luke, Paul, James, and John.

**BIOLOGY**

Mr. Miley

---

**BI 103—General Zoology.**

Two lectures. Two hours laboratory. Three credits.

A survey of the animal kingdom designed to give some acquaintance with the basic biological principles and facts underlying all life. Representatives of all phyla are studied from the standpoint of morphology, physiology, ecology, etc.

**BI 104—General Zoology.**

Two lectures Four hours laboratory. Four Credits.

Same as BI 103 except for laboratory.

**BI 203—General Zoology.**

Two lectures. Two hours laboratory. Three credits.

A study of the structure, habits, development, function, distribution, heredity, and economic importance of chordate animals.

**BI 204—General Zoology.**

Two lectures. Four hours laboratory. Four credits.

Same as BI 103 except for laboratory.

**BI 223—General Botany.**

Two lectures. Two hours laboratory. Three credits.

A survey course in the fundamental facts and principles of plant life, with particular reference to form, structure, physiology, and reproduction in representatives of the group of higher plants.

**BI 323—General Botany.**

Two lectures. Two hours laboratory. Three credits.

Representative groups in the plant kingdom; habitat; structure; reproduction; economic importance; phylogeny.

**BUSINESS LAW**

Mr. Allen

—

**BL 303—Business Law.**

Three lectures. Three credits.

Normal business relations from a legal standpoint with emphasis on the laws of contracts, agency, negotiable instruments, and employer-employee relations.

**BL 403—Business Law.**

Three lectures. Three credits.

Normal business relations from a legal standpoint with emphasis on the laws of property, bailments, carriers, sales, insurance, corporations, trusts, and partnerships.

**CHEMISTRY**

Mr. Griffin

**CH 114-214—General Inorganic Chemistry.**

Three lectures. Three hours laboratory. Four credits.

An introductory course dealing with such fundamentals as atomic structure, chemical reactions, chemical equations, ionization, chemical calculation, electro chemistry, atomic energy preparation and properties of inorganic substances and qualitative analysis.

**CH 325-425—Organic Chemistry.**

Three lectures. Six hours laboratory. Five credits each semester.

Prerequisites CH 114 and CH 214. A study of the aliphatic and aromatic compounds with special attention given to their molecular structure, methods of preparation, reactions, properties and uses.

**DRAWING**

Mr. Thorne

**DR 102—Mechanical Drawing.**

Six hours laboratory. Two credits.

The use of instruments; geometric constructions; orthographic projections; dimensions; lettering; instruction and practice in technical sketching and sketching from models.

**DR 202—Mechanical Drawing.**

Six hours laboratory. Two credits.

Prerequisites DR 102. Continuation of DR 102. This course includes sections, conventions, fasteners, pictorial drawings, charts and graphs of detail and assemblies, and a project involving all phases of draftsmanship.

**DR 315—Architectural Drawing.**

Ten hours laboratory. Five hours credit.

A study of the fundamental principles of architectural practices and techniques involving the development of complete house plans.

**DR 413—Descriptive Geometry.**

Two lectures. Three hours laboratory. Three credits.

Prerequisites DR 102. Theory of drafting; exercises in engineering problems; discipline in developing the ability to visualize points, lines, and surfaces under various conditions; practical applications.

**DR 415—Structural Drafting.**

Ten hours laboratory. Five hours credit.

Architectural drawing is continued. Emphasis is placed upon design and construction of small commercial buildings, including plumbing, heating, air conditioning, and electrical circuit layouts.

**ECONOMICS**

Mr. Allen

---

**EC 303—Principles of Economics.**

Three lectures. Three credits.

Economic system of the United States: consumers, producers, banks, government, labor unions; contrasts with communism.

**EC 413—Principles of Economics.**

Forces of demand and supply in markets for goods, capital, labor, and land.

**ENGLISH**

Miss Bostwick, Miss Jackson, Mr. Van Devender

---

The courses of study offered in English have three purposes:

1. To teach the student to avoid common errors in everyday speech and writing.
2. To give all students proficiency in writing of clear and correct English.
3. To make them familiar with outstanding works that are the literary heritage of the English speaking people.

**EN 113-213—English Composition.**

Three lectures. One hour laboratory. Three credits.

This course consists of a review of grammar and usage, study of fundamentals of composition, and analysis of selected prose. Method of study and the use of the library are stressed. Second semester's work is a continuation of the first with preparation of a research paper included.

**EN 333-433—A Survey of English Literature.**

Three lectures. Three credits.

The first semester's work in this course is a survey of English literature from the beginnings through the Eighteenth Century. Emphasis is placed primarily on the literature itself with some attention given to biographical studies, criticism, and historical backgrounds. The second semester's course begins with the English Romantic movement and continues to the present. (Prerequisite EN 113, 213 or equivalent)

**HOME ECONOMICS**

Miss Carithers

The purpose of this department is threefold:

1. To give the young woman an intelligent appreciation of the occupation of homemaking, and to broaden their outlook on life through consideration of the social and economic factors which govern the home.
2. To cultivate their aesthetic taste in the selection of clothing and in the decoration of the home.
3. To develop the ability to apply the various processes taught in the selection and preparation of food, and to develop this same ability in the construction and care of clothing and the efficient management of the home.

**HE 103-403—Food and Nutrition.**

Two lectures. Two hours laboratory. Three credits.

This course gives the student the fundamental principles of food with special reference to their selection, purchasing, composition, preservation, preparation, serving, nutritive value, and place in diet. A study of the nutritive requirements of the body and the quality of food necessary to meet these requirements.

**HE 223-333—Textiles and Clothing.**

Two lectures. Two hours laboratory. Three credits.

The purpose of this course is to make a study of the textile fibers (cotton, linen, wool, silk, and rayon) and of weaves, adulterations, and finishes used for each; clothing selection and construction with consideration of the economic, aesthetic, and hygienic aspects. It includes the application of the principles of color and design to individual selection, pattern adaptation and alteration, and care and repair of clothing.

**HISTORY**

Mr. Morris, Mr. Sudduth

**HI 103—Early World Civilization.**

Three lectures. Three credits.

This course is intended as a survey of World Civilization from prehistoric times to the discovery of America. The main purpose will be to study the trends in the history of the world with particular emphasis on their relation, to present day living. The object of the course is to study the political, social, economic, and religious thought of the times, together with the wars and (so-called) science and art of those times.

**HI 203—Modern World Civilization.**

Three lectures. Three credits.

This course is a continuation of HI 103. One-half of the work will be devoted to the 20th century with its two great world wars. The same approach will be used as in HI 103.

**HI 333-433—Early and Modern U. S. History.**

Three lectures. Three credits.

A survey of U. S. History from 1787 through the Civil War for HI 333 and from Civil War to the present for HI 433.

**INDUSTRIAL EDUCATION**Mr. Thorne, Mr. Sims

---

**IE 133—Blueprint Reading.**

Three lectures. Three credits.

A basic course involving actual problems in reading architectural, mechanical, and structural drawings.

**IE 233—Structural Design.**

Three lectures. Three credits.

A study of the principles of structural design.

**IE 263—Woodwork.**

Six hour laboratory. Three credits.

Knowledge, appreciation and skill in the use of hand tools, wood joints, finishes, fasteners, and job planning.

**IE 453—Topography.**

Three lectures. Three credits.

A survey course dealing with the principles of topography and topographic mapping.

**IE 363—Advanced Woodwork.**

Six hours laboratory. Three credits.

Prerequisites IE 263. Mill practices and techniques; machine and tool operation; job planning and design.

**IE 433—Forging and Welding.**

Six hours laboratory. Three credits.

Practice in hand forging; annealing, hardening, and tempering of tool steel; gas and electric welding.

**IE 343—Costs and Estimates.**

Three lectures. Three credits.

**MATHEMATICS**Mrs. Jacobs, Mr. Thompson, Mr. Murrell

---

**MA 113—College Algebra.**

Three lectures. Three credits.

Review of fundamentals, linear and quadratic equations, simultaneous equations, theory of equations, probability and partial fractions.

**MA 153—Analytical Geometry.**

Three lectures. Three credits.

A study of the straight line, circle, parabola, ellipse, and hyperbola, taking up translations and rotation, polar co-ordinates, higher plane curves and normals.

**MA 163—Differential Calculus.**

Three lectures. Three credits.

The derivative; differentiation; Maxima and Minima, geometric applications, rates of change, and partial differentiation.

**MA 183—Business Mathematics.**

Three lectures. Three credits.

A course in General Mathematics designed to meet special needs of students in the business field.

**MA 243—Trigonometry**

Three lectures. Three credits.

Trigonometric functions, solutions of right and oblique triangle; graph of functions, identities, inverse functions, cartesian and polar co-ordinates, and conic sections.

**MA 273—Integral Calculus I**

Three lectures. Three credits.

The definite integral; formal integration; application to areas, volumes, and moments.

**MA 383—Integral Calculus II**

Three lectures. Three credits.

Multiple integral approximate integration series; Taylor's Theorem; differential equations.

**MA 493—Differential Equations**

Three lectures. Three credits.

Solution of first and higher order differential equations; existence theorems; solution by series.

**MODERN LANGUAGE**

Mrs. Branch

—

**ML 103-203—Elementary French.**

Three lectures. Three credits.

Elementary grammar, composition, dictation, translation, reading, and conversation.

**ML 303-403—Intermediate French.**

Three lectures. Three credits.

A thorough review of French grammar; vocabulary building with particular attention to the mastery of common idioms, dictation, conversation, and extensive reading.

**MUSIC**

Mrs. McKie, Mrs. Lornace, Mr. Weems

---

The maximum number of units for high school credit is two. To secure this number of units the following requirements must be met:

- (a) Two hours (2 periods of not less than 30 minutes each) per week of private instruction in applied music; one period of class instruction in the theory and history of music; six hours (one sixty-minute period each day) per week of home practice.
- (b) For this amount of study and practice each year, one-half unit will be allowed provided at least two years of preliminary study has been made.

**COLLEGE MUSIC**

---

All major and minor scales (harmonic form) must be played in moderate tempo. The first movement of the sonatina and two melody studies must be played from memory. Candidates for diplomas in music must present a public recital.

---

## THEORY OF MUSIC

---

**MU 102-202—Sight Singing.**

Two lectures. Two credits.

The rudiments of music notation and the ability to sing easy melodies with syllables.

**MU 104-204-304-404**

Three hours lecture. Two hours Laboratory. Four credits each semester.

The students learn to recognize and write on hearing; diatonic intervals, major and minor triads, rhythmic and melodic patterns. Keyboard harmony is stressed in this course. Major and minor chords, scales, intervals, dominant and diminished chords and their inversions are studied. In the second year eleventh, thirteenth altered and mixed chords, modulation, etc. are studied.

**MU 113—Music Appreciation.**

Three lectures. Three credits.

A cultural course to develop an understanding and appreciation of various musical forms and the literature of music. Attendance at all recitals mandatory.

**MU 151-251-351-451—Band.**

Five hours laboratory. One credit.

## PIANO

---

Two hours practice per day is required for piano majors for credit.

**PI 103-203—Freshman Piano.**

Three credits each semester.

This course includes major and minor scales—broken chords and arpeggios in quarters, eights, triplets, and sixteenths. Dominant and diminished seventh chords. The following studies are included: Czerny Op. 299. Bach Two and Three; Part Intervention; Haydn and Mozart Sonatas; nine selections of various compositions of corresponding difficulty.

**PI 142-242—Piano (Freshmen).**

Two credits each semester.

This is a course offered for those who desire to study piano without securing a major in it. Work will be assigned which will meet the particular needs of each pupil. Practice required; six hours per week.

**PI 303-403—Sophomore Piano.**

Three credits each semester.

This course includes the major and minor scales in thirds, sixths, and tenths—arpeggios and broken chords (Major and Minor) in various combinations, all forms and positions in quarters eights, triplets, and sixteenths. Czerny Op. 740; Bach Three Part Inversions; Preludes and Fugues; Mozart and Beethoven Sonatas; selections from classical, romantic, and modern schools. Practice on instrument required.

**PI 342-442—Sophomore Piano.**

Two hours credit each semester.

A continuation of PI 142 and PI 242.

**VOICE**

Mrs. McKie

---

**VO 103-203—Freshman Voice.**

Three credits each semester. Two half-hour lessons a week. Foundation building. Vowels and consonants, their character, treatment and relation to vocal tone. Exercises for flexibility of the muscles of articulation, mechanism of speed and science of tone production. Simple songs.

**VO 111-211-311-411—Glee Club.**

One credit each semester. Meets twice a week throughout the year.

Required for diploma.

**VO 121-221—Class Voice.**

One credit each semester.

Two hours a week throughout the year.

**VO 131-231-331-431—Voice for Students Not Majoring in Voice.**

One credit each semester.

**VO 303-403—Sophomore Voice.**

Three credits each semester. Two half-hour lessons a week throughout the year.

Breathing exercises, rhythms purity of vowels, and sound and enunciation studies. Phrasing, vocalize Marenesi, Concone, etc. English, Italian, and French songs. Classical and modern.

**INSTRUMENTATION**

Mr Carroll

---

**IN 102-202-302-402—Woodwind.**

Two credits each semester.

Instruction and practice on instrument.

**IN 112-212-312-412—Brass.**

Two credits each semester.

Instruction and practice on instrument.

**IN 132-232-432—Strings**

Two credits each semester.

Instruction and practice on major instrument.

**IN 142-242-342-442—Percussion.**

Two credits each semester.

Instruction and practice on major instrument.

**OFFICE ADMINISTRATION**

Mr. Fletcher, Mr. Allen, Mrs. Wilson, Mrs. Nell Branch

---

**OA—102—Typewriting (Elementary).**

Three Lectures. Two Credits.

Mechanism and care of the typewriter; its operation; keyboard drills to gain speed and accuracy; introduction to letter forms. Students with a year of high school typewriting cannot receive credit in this course.

**OA 113—Shorthand (Elementary)**

Three Lectures Three Credits.

The theory and practice of Gregg and Simplified Shorthand. The principles are applied by reading and writing shorthand with a limited amount of dictation and transcription from shorthand notes. Students with a year of high school shorthand cannot receive credit in this course.

**OA 202—Typewriting (Intermediate).**

Three lectures. Two credits.

Advanced drills for speed and accuracy; letter forms; telegrams and other business forms; manuscript typewriting.

**OA 213—Shorthand (Intermediate).**

Three lectures. Three credits.

A continuation of OA 113.

**OA 302—Typewriting (Advanced).**

Three lectures. Two credits.

A continuation of OA 202.

**OA 313—Shorthand (Advanced).**

Three lectures. Three Credits.

The aim of this course is to increase accuracy and speed of transcription with emphasis on mailability of letters.

**OA 333—Business Correspondence.**

Three lectures. Three credits.

Main emphasis is upon business letter writing. Correctness of composition, choice of words, psychological approach, arrangement of material and correspondence methods are included.

**OA 402—Typewriting (Advanced).**

Three lectures. Two credits.

Actual office problems are presented, solved by the students, and completed in typewritten forms. Speed and accuracy are stressed.

**OA 413—Shorthand (for Secretaries).**

Three lectures. Three credits.

The continuation of OA 313. A minimum of 100 words per minute should be reached on new material and 120 words per minute on old material.

**OA 422—Filing.**

Two lectures. Two credits.

The various systems of filing with sufficient practice in the laboratory to develop skill in the operation of the systems. Coding, indexing, equipment and materials are emphasized.

**OA 443—Office Machines.**

Three lectures. Three credits.

Finger technique and speed in the operation of key-driven calculators, full keyboard adding-listing machines, and crank driven calculators. Other machines will be introduced also.

**PHYSICAL EDUCATION**

Mr. Mustin, Mr. Rozelle, Miss Thomas, Mr. Sims

**PE 101-201-301-401—Physical Development.**

One credit each semester. Two periods each week.

This course includes varied exercises—such as volleyball, basketball, tennis, and calisthenics. These courses are required for all boys.

**PE 111-211-311-411—Physical Education for Girls.**

One credit each semester. Two periods each week.

This course includes indoor and outdoor exercises. These courses are required for all girls.

**PE 183—History and Principles of Physical Education.**

Three Lectures. Three credits.

An interpretation of aims and objectives of physical education based on the findings of Science.

**PE 273—Health.**

Three lectures. Three credits.

This course is designed to meet the needs of the students just starting on a college career. Anatomy and physiology are discussed, but the emphasis is placed upon hygiene of rest, study, recreation, habit, exercise, and extra curricular activities.

**PE 493—Playground and Community Recreation.**

Three lectures. Three credits.

The planning and administering of recreation program for playgrounds and recreation centers, including adult recreation and community program.

**PHYSICS**Mr. Spell

---

**PH 113—Physical Science Survey.**

Three lectures Three credits.

Designed for the non-technical student. A survey of the fundamental laws of physics and astronomy.

**PH 213—Physical Science Survey.**

Three lectures. Three credits.

Designed for the non-technical student. A survey of the fundamental laws of chemistry, meteorology, and geology.

**PH 223 General Physics.**

Two lectures Three hours laboratory. Three credits.

That part of physics dealing with the fundamental laws of mechanics.

**PH 323—General Physics.**

Two lectures Three hours laboratory. Three credits.

This course is that part of physics dealing with the fundamental laws of electricity and magnetism.

**PH 423—General Physics.**

Two lectures. Three hours laboratory. Three credits.

This course is that part of physics dealing with the fundamental laws of heat, light, and sound.

---

★  
**POLITICAL SCIENCE**Mr. Morris, Mr. Sudduth

---

**PS 313—Government of the United States.**

Three lectures. Three credits.

This course consists of a survey of the principles and practices of American Government as exemplified more particularly in the National Field. Attention is given to the trends in the state and local government.

**PS 423—American State and Local Government.**

Three lectures. Three credits.

This course outlines the organization and problems of state government in the United States. The different forms of local government are discussed as parts of the state government organization. Specific application to conditions existing in Mississippi will be made.

**PSYCHOLOGY**Mr. Sudduth, Mr. O'Connor

---

**PY 243—Human Growth and Development.**

Three lectures. Three credits.

This course deals with the way by which human beings develop from birth to maturity. Special attention is given to the physical, mental, emotional, social growth and development. Special study of the child at each age will be made.

**PY 333—General Psychology.**

Three lectures. Three credits.

The purpose of this course is to introduce to the students some general accepted facts, principles and theories bearing upon the elements of behavior. Outside reading is required so as to give the student a broader view of human behavior.

**SOCIOLOGY**Mr. Sudduth

---

**SO 303—Introduction to Sociology.**

Three lectures. Three credits.

The nature and development of culture; social aspects of personality; analysis of community life, population trends, social classes, institution, processes, and organizations; cultural change.

**SPEECH**Miss Bostwick

---

**SP 423—Oral Communication.**

Three lectures. Three credits.

Correct and effective English, correct pronunciation and enunciation, breath control, study and practice in making speeches for all occasions, major emphasis on an organization of material and practice in speaking before the group.

**SP 113—Discussion and Debate.**

Three credits. Meets two hours each week for both semesters. Discussion and debate as tools of a democratic society are considered. The organization and presentation of the different types of discussions as well as the theory and practice of several forms of debate are included.

**SP 223—Play Production.**

Three lectures. Three credits.

The fundamental basis of complete theatre production including discussion and practical application of the primary phases of dramatic technique, are surveyed. This course is particularly recommended for secondary school teachers who may be called upon to direct high school plays.

**SP 233—Fundamentals of Oral Interpretation.**

Three lectures. Three credits.

Techniques for reading aloud are surveyed. Stress is placed upon the complete understanding of a given selection before it is read.
